

Math Choice Board

Pick a number from 1 to 10 and draw a picture to represent that number?	What comes before 7?	Throw a ball from a marked line. Measure how many steps to get to the ball.	I have 10 balloons and then 7 popped. How many do I have left?	Count forwards to 10.
Go on a walk and identify 3D shapes? Cone, Cylinder, Cube, sphere, and Pyramid.	Count backwards from 10.	Billy has 4 pencils and Sally has 4 pencils too. How many do they have?	Pick 3 objects and order them by length.	What comes after 8?
What comes after 5?	Draw a picture that is fewer than 8?	Find a shirt with a pattern and talk about the pattern. What is the core?	John has 5 plates and Mary has 4 plates. How many plates do they have?	3 fish were swimming and 6 more joined. How many fish are swimming?
There was 3 dogs at the park and I dog left. How many dogs are left?	Pick two objects and explain which one is light and which one is heavy.	What comes before 9?	How high can you count? Can you get to one hundred.	Draw a picture that is more than 5?

Math website: splash learn, students can work on the kindergarten level or if they want a challenge they could try the grade one level.

Step 1: Go to <https://www.splashlearn.com/> (there is also an app available), and in the top corner click sign in.

Step 2: Where are you playing Spash learn? Select **Class**

Step 3: Enter class code: **UQHBGL**

Step 3: your child finds his or her username on the class chart.

Step 4: your child enter his or her password. See student passwords under document tab.
