Bonjour Parents,

Hope you all enjoyed your weekend and enjoyed the sun!

Here is your child's homework for this week. This week I introduced Fractions in math. Any changes are indicated in red. I continue to encourage you to check out Mr. Noel and Mr. Williston's page for PE and Mrs. Comeau's page for music. Continue to play outside and enjoy the fresh air!

If you have any questions, videos, or pictures to send me please continue to do so: mona.glazier@nbed.nb.ca

## April 27th - May 1st, 2020.

## Math (30 min a day)

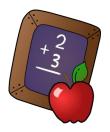

# Online resources (15-20 min)

#### Websites (optional)

https://www.abcya.com

https://www.education.com/games/division/?referral\_url=kidsnumbers.com http://www.fun4thebrain.com/mult.html

https://www.multiplication.com/games/all-games

#### https://www.education.com/worksheets/

copy and paste this website and push enter. You can print math sheets if you have a printer. If you are not able to print, like me, you can do the work on a separate piece of paper.

#### **Grade 4 curriculum connection:**

-Demonstrate an understanding of fractions less than or equal to one by using concrete and pictorial representations to: - name and record fractions for the parts of a whole or a set - compare and order fractions - model and explain that for different wholes, two identical fractions may not represent the same quantity - provide examples of where fractions are used.

#### **Grade 5 curriculum connection:**

-Demonstrate an understanding of fractions by using concrete and pictorial representations to: • create sets of equivalent fractions • compare fractions with like and unlike denominators

Please go to this website to practice fractions. <a href="https://ca.ixl.com/">https://ca.ixl.com/</a>

username is your first and last name followed by 113 password: glazier

Ex: jacobrichardson113 Password: glazier

Naygray113 password: glazier

All lower case

Step 1: click on math

Step 2: scroll down and find your grade level and click on see all skills (right)

Step 3: Grade 4: Understand Fractions -click on R.1, R.2 and continue

Grade 5: fractions and mixed numbers -click on J.1, J.2 and continue

\*Click on math to go to a new concept.

\*Please go to my document folder to see a Fraction tiles template that you can print or just look at to help with fractions. If you or your child do not understand this new concept or get frustrated, please choose another math game or a previous math activity.

## Literacy (30 min a day)

#### Reading (10-15 min)

- 1. Reading website: https://jelis-free.rkpublishing.com/student
- -Choose a book at your level, if it's too difficult go down a level. Go up a level if it's too easy.
- -Listen to the book, then read the book twice (for fluency). Retell the story to someone at home, if possible.
- \*This is an online reading resource. It will read the book for you. Please read along.
- -Please email me if you did not get a username and password. mona.glazier@nbed.nb.ca

### 2. <a href="https://www.raz-kids.com/">https://www.raz-kids.com/</a>

- -Click on kids login. Teacher username is monaglazier (one word)
  -Your username is your first name and for the password, click on the
- bunny. (There are math games and books you can read in this website)
- 3. Listen to a French story on TumbleBooks. Retell the story in French or talk about your favorite part of the story. This is an online reading resource. It will read the book for you. Please read along. <a href="https://www.tumblebooks.com/">https://www.tumblebooks.com/</a>
  - o Username: nblib Password: nbschools
- 4. Here is another free website where various fables are read to you. You can click on the language either English or French. Enjoy! <a href="https://www.thefablecottage.com/">https://www.thefablecottage.com/</a>
- 5. https://ici.radio-canada.ca/jeunesse

	On this site you will find so many fun and educational activities, games, videos, recipes, tv shows- in French!
Word work	Word work: Etude de mots
(10-15 min)	Choose 5-10 words from the list in the photo gallery. These will be the words until the end of June. Choose an activity we practice in class. Ex. Mots graffitis, locomotive, différentes couleurs, autour d'une forme, tic-tac-mot, lettre magnétique, etc.
	You can practice these words however you want. On computer, paper, play doh, whatever works best for you.
Writing (15-20 min)	Write about your favourite toy or object in your house. Send me of picture or a video of you describing this object.
	Questions qui peuvent t'aider :  1. Quel est le nom de ton objet ou jouet (toy)  2. Pourquoi c'est ton préféré dans ta maison?  3. Qui te la donné?  4. À quoi cela ressemble?
	Ex: Mon objet préféré dans ma maison est ma lampe de sel orange. Cette lampe est toujours allumée dans mon salon et elle me donne de la bonne énergie positive. Mon mari me l'a acheté pour moi. Lorsque je regarde la belle lampe orange, cela me relaxe. J'adore sa couleur orange. Elle est lourde, car c'est une roche et elle est salée.
	Please send videos or pictures to
Speaking / Listening	<ul> <li>Mona.glazier@nbed.nb.ca</li> <li>Talk to a classmate or family member on the phone or</li> </ul>
	someone at home in French.  - Watch television or YouTube videos in French.

throughout

week

The following are no-tech math activities that can be done around the house without the use of technology. Some of them can be fun for the whole family!

- · Card Games: Crazy 8s, Go Fish, Uno, Rummy, Crib, War etc.
- Board Games: Monopoly, Checkers, Chess, Yahtzee, Snakes and Ladders, etc.
- Cooking: Follow recipes to work on fractions and measurement. For example, find a healthy snack recipe and either double or half the batch.
- Data Analysis: Make simple graphs representing data over time (such as tracking the daily weather, how many birds visit your bird feeder, how many minutes you use technology or watch television, etc).
- Estimation: Estimate the cost of your grocery bill, the time it takes to do a task, lengths of objects, distances walked, etc.
- Geometry: Go for a nature walk in your yard or neighbourhood and record how many objects match 2D and 3D geometric shapes. For example, the sun looks like a circle or a sphere, the fronts of some houses look like rectangles, etc. Bring a piece of paper and a pencil to record what you see.
- Time: Practice telling time using digital and analog clocks.
- Measurement: Find the perimeter and area of one or more rooms in your house. If you don't have a tape measure, use something else as a measuring tool. For example, a shoe, a book, a box, etc.
- Patterns: Get 10 books and arrange them according to size. How else can you arrange them? Try this with other types of objects such as shoes, toys, pens/pencils/markers, etc.
- Number Sense: What do you get when you double the number 1? Keep doubling your answer and see how far you can get without using a calculator. You may want to do this with a pencil on a piece of paper.
- · Calendar: How many days until your birthday? What about the other members of your family?

- Math Journal: Write about a situation where 5 is a small number then write about a situation where 5 is a big number.
- Just for fun: Include your favorite number in every sentence you say. Don't tell anyone what you're doing and see if they figure it out.
