Math

Continue to practice counting forward from 0 to 20 and backward from 20 to 0.

Did you try making patterns yesterday? Make patterns again today. Try using your socks, snacks, crayons, Lego, or go outside and collect some leaves) to practice making patterns with. You can start with an AB pattern (ex. red leaf, green leaf, red leaf, green leaf...). Then try an ABB pattern (ex. red leaf, green leaf, green leaf, red leaf, green leaf, green leaf...). Finally try to make an AAB pattern (ex. red leaf, red leaf, green leaf, red leaf, red leaf, green leaf...) Tell your family the part that repeats is called the core of the pattern.

Take out a piece of paper and practice printing your numbers

Literacy

Read a book or listen to a story on storyline online (<https://storylineonline.net/>). After the story, tell an adult what the best part of the book was and write a sentence about it. Remember to always do your best printing, start with a capital letter, and end with the proper punctuation mark! 😊

Here is another fun experiment to try!

Tornado in a Glass

Materials Needed:

- Water
- Liquid dish soap
- Tall glass or jar
- Stirrer (could be a pencil, straw, etc.)

Directions:

1. Fill the glass with three quarters of water.
2. Put a few drops of dish soap in the water.
3. Hold the jar with one hand and use your other hand to stir the water quickly in a circular motion, until you see spinning bubbles.
4. Remove the stirrer and observe
5. Write a sentence about what you saw happening in the glass. Draw a picture to go with it!
